My dear Sir.

As you are aware my collection
of Antiquities embraces many fine specimens
from America; of Mound pipes, and
Some Antiquities, a Wampum belt &c
&c and some documents relating to
Pennsylvania with William Penn's
Signature and a few U.S.A. XIX and
late XVIII Century, Coins. I would like
to place the entire in your hands for
Sale, if you would let me know
how to forward, describe, & consign
them. Would there be duty upon
such Antiquities all of which are
American

in their re-shipment to you?

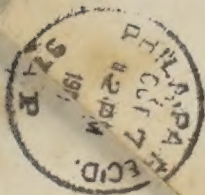

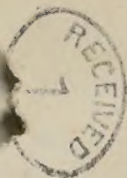

No one here takes the slightest interest in the above & they remain locked up in Cabinets from years-end to years-end, so that I have got not tired of them, but of having more, locked up which if liberated would be inserted in War medals my collection of which has cost me more than £5,000—My military friends take a great interest in these and the medals of the Irish Volunteers have a special interest to me.

In the old times I was surrounded by Antiquaries here - R^d Smithill - John Lindsay. Richard Caulfield - Joseph Wright - Hodder Wentrop - and his Brother Ralph. &c &c Now all are either away from Cork, or across the Valley of the shadow, and I have
